

CUBES

CARRS'12

REIMAGINE SPACES,
REDEFINE BOUNDARIES

Glorious and of top quality,
just as exquisite exhibits
should be showcased: behold
our glass CARS'nCUBES. Whether
for your personal collection
of vintage or young-timer
cars, your private fleet,
or a commercial display of
brand-new vehicles.

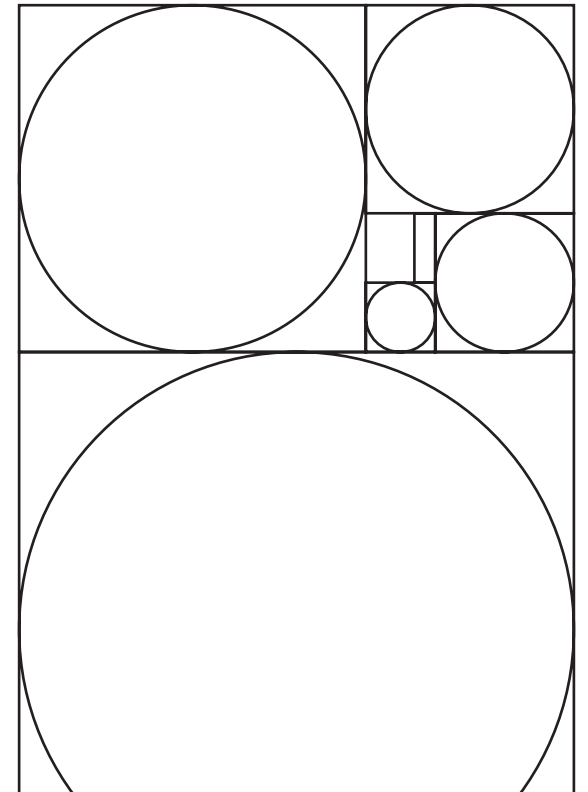

ENDLESS VIEWS.
SUBTILE MAGIC,
HOLISTIC
DESIGN

Crafted with passion and expertise in our factory, the CARS'nCUBES are a true labor of love. Constructed from top-quality materials like multi-glazed, energy-efficient panoramic windows and weather-resistant building materials, these treasures are built to last. Cherish them for years to come.

INVISIBLE SHOWROOMS

CARS'nCUBES - where extroverted cubism meets cozy minimalism and modern subtlety. The choice is yours: capture admiring glances and pure nature, or blend a seemingly boundless panorama with the luxury of maximum privacy? Both are possible, evidently.

CARS 'n

CUBES

THE TEAM BEHIND:

PETROL IN THE
VEINS, DESIGN

IN THE HEAD

Since we can walk, we actually prefer driving. We are car lovers, technology freaks, design fetishists. Craftsman and architecture lover with heart and soul.

Our story began many years ago as a small family business that has now developed into a successful and growth-oriented medium-sized company for glass and metal concepts. Our motivation: the desire for something special. The vision of not

only designing products or rooms, but also giving things a deeper meaning and added value lies in our DNA. That's why we create innovation-driven value-adding solutions for people who have a passion for good architecture. For automobile lovers who not only love, but also honor and love to present pure beauty.

EXCELLENCE & EMOTIONS

DRIVE FOR EXCELLENCE

If there's one thing we're good at, it's perfection. Seemingly invisible connections, precise edges and high-quality materials, combined to create an exquisite stage for something really special.

LISTEN TO YOUR EMOTIONS

The secret of happy and successful people is to recognize the beauty of the moment and transform it into something lasting. Only when you see something special you realize that you absolutely want it.

NEVER BRAKE

Life is too short to hesitate. If you don't dare to try something new, you'll never outgrow yourself.

BE BLOODY PROUD

It is entirely right to celebrate pride. Pride is the reward for hard work and an important fuel to keep going. It shows us who we are, what we have achieved and what we are still capable of if we really want it.

ENJOY SPEED

FULL BENEFITS.

EXTRAVAGANT PRESENTATION

The invisible showrooms are the perfect and certainly the most extravagant place to treat yourself to an exquisite break with your luxury vehicle or to proudly present what we believe to be the "most beautiful thing in the world".

A STRONG STATEMENT

Show what you have and experience magical moments with your loved one on four wheels. The CARS'nCUBES make a real design and innovation statement and give you the most charming opportunity to showcase your favorite pieces and values in an innovative and elegant way in an unprecedented way and at the highest technical level.

SAFE VEHICLE STORAGE

Of course, you can assume that your treasures are in absolute safety. We only use the latest high-security technology. Smart features such as fingerprint access control, camera monitoring with app function, acoustic

and visual alarm system via ultrasonic motion detectors in the interior, safety glass, a secured hydraulic ramp, etc. ensure that everything stays as it should.

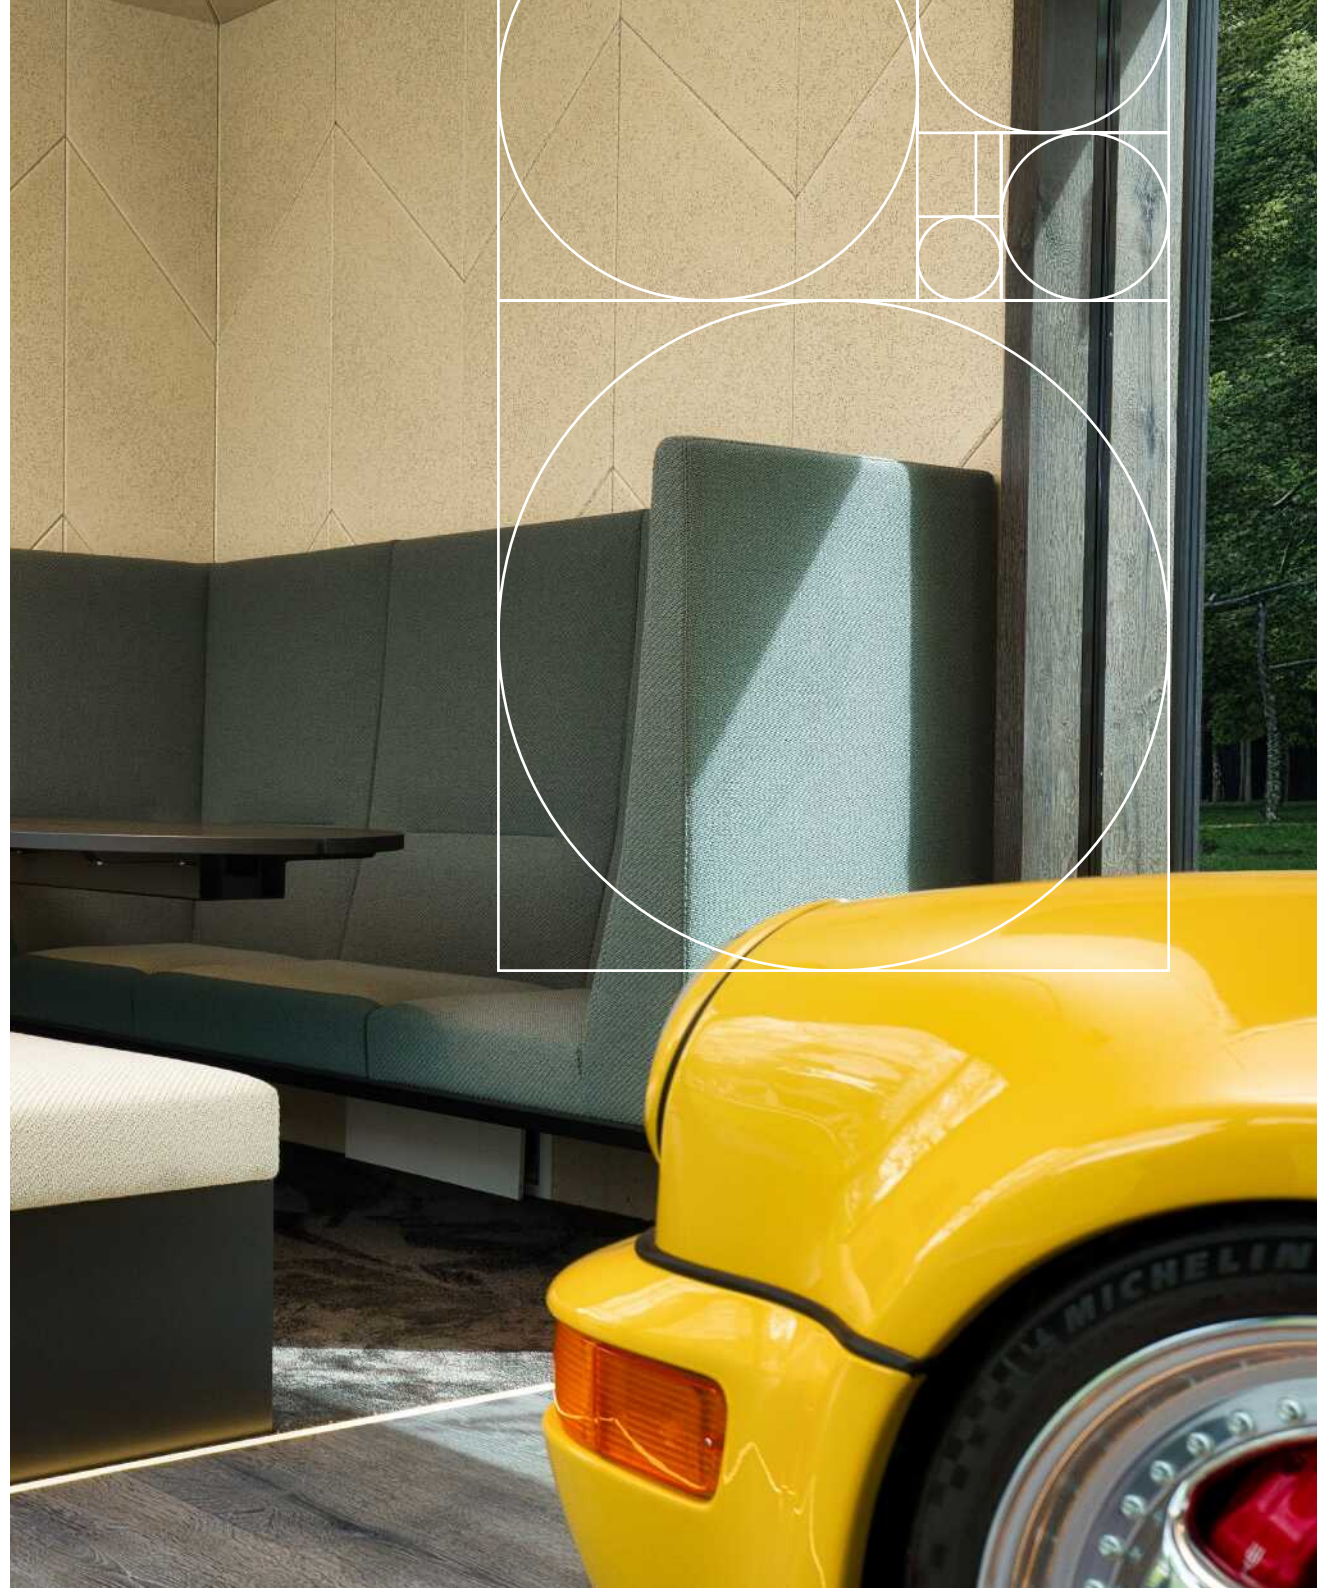

TAILORED & CUSTOMIZABLE

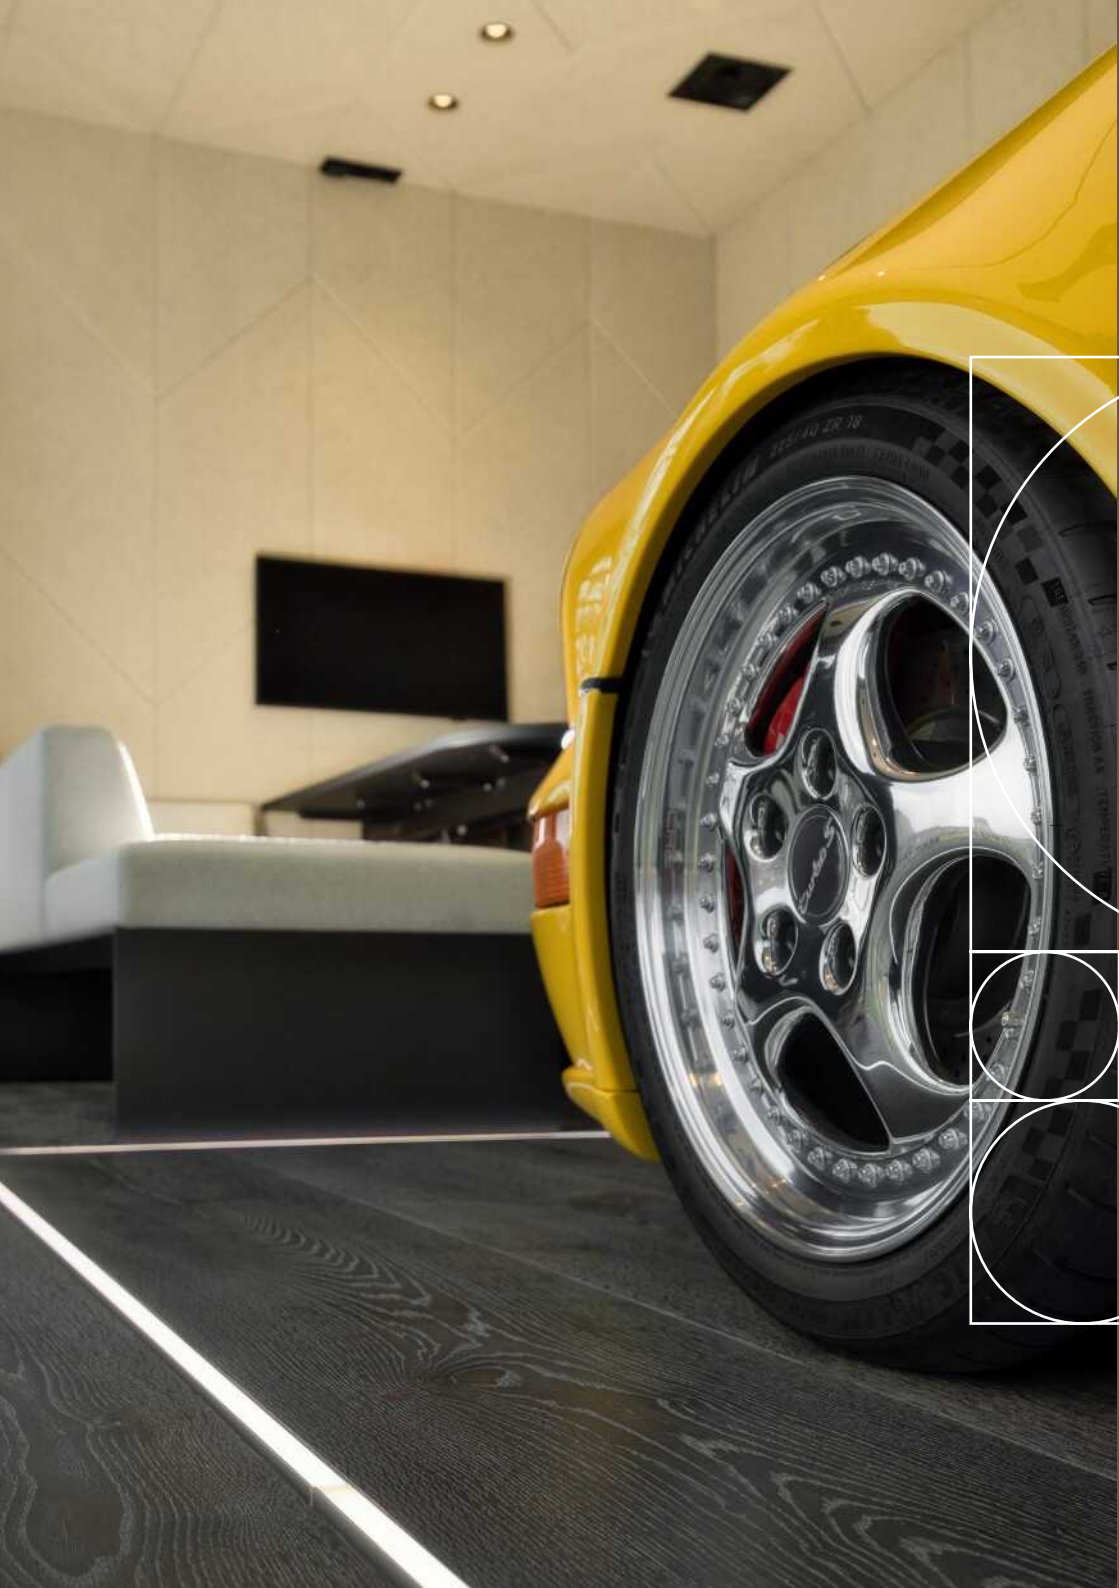

Are you looking for an exquisite and tailor-made presentation and storage option for your dream car? Forget the classic garage, welcome to the future. Your tailor-made showroom offers so many smart extras that you'll get watery eyes.

ROBUST & ENERGY SAVING MATERIALS

Our CARS'nCUBES were manufactured completely in-house by our experts with a lot of love and to the highest standards in our factory near Straubing. Thanks to the robust, durable materials made from multi-glazed, energy-efficient panoramic windows and weather-resistant materials, you can enjoy your treasures for a long time.

WE ADMIT IT,
WE ARE REALLY
ENTHUSIASTIC
WHEN IT COMES TO
OUR CARS'nCUBES.
WE PUT IN SO
MUCH PASSION,
DEVELOPMENT,
HOURS OF WORK
AND ATTENTION
TO DETAIL THAT
THE BABIES
SHOULD ACTUALLY
BE ABLE TO FLY.
